2010 1040 US Itemized Deductions (continued) 25 p5

If either of the following conditions below apply to you, your home mortgage interest deduction may need to be limited and the input section provided below should be completed. If neither condition applies, enter home mortgage interest amounts on organizer sheet 25 p2.

- 1. Total home equity debt exceeded \$100,000 at any time during 2010 (\$50,000 if married filing separate). For this purpose, home equity debt is defined as any mortgages taken out after October 13, 1987 in which the proceeds were used for purposes other than to buy, build, or improve your home. An example of this type of mortgage is a home equity loan use to pay off credit card bills, buy a car, or pay tuition.
- 2. Total home acquisition debt exceeded \$1,000,000 at any time during 2010 (\$500,000 if married filing separate). For this purpose, home acquisition debt is defined as any mortgages taken out after October 13, 1987 in which the proceeds were used to buy, build, or improve your home.

NOTE: When completing the input section below, grandfather debt represents loans taken out prior to October 14, 1987.

Please enter all pertinent 2010 amounts and attach all 1098 forms. Last year's amounts are provided for your reference.
